Features

High Compatibility and Innovative Design

WFT510 is the ONLY wireless foto transmitter designed to work with PictBridge compatible digital cameras*, including high-end DSLR and consumer-type cameras.

* Actual compatibility may vary by cameras.

Wireless Transmission

Allow users to transmit images from a PictBridge compatible digital camera to a photo printer with wireless function.

Affordable Wireless Foto Transmitter

WFT510 comes at an affordable price, allowing consumers to enjoy wireless transmission function just like the high-end DSLR cameras users.

Easy Operation*

With switch button design, WFT510 is able to activate PictBridge mode of digital camera easily. After shooting a photo, user will only need to click the switch button, select photos, and then transmit photos to printer or PC wirelessly.

* The operation process may be slightly different depends on what digital camera is used.

PC connectivity

By installing WFT PC Kit, bundled with WFT510, users can transmit image data directly to computer, which further enhances the flexibility of wireless transmission solution.

Auto Setting Function

WFT PC Kit provides AUTO setting function, assisting users to set up their PCs to receive the images through WFT510 easily.
