# DNP
## Photo **I** maging

# WPS™ Pro
## Wireless Print Server

## WIRELESS PRINTING FROM PHONES, TABLETS, PCs, MACs, AND WIFI-ENABLED CAMERAS!

# WPS™ Pro

**WPS Pro allows event photographers to efficiently increase their shoot-to-print business by eliminating the use of wires and memory cards.**

## Phones & Tablets

Capture and print any photo in your camera roll directly to the WPS Pro using the free WPS Print 2 app for iPhone/iPad and Android. Quickly select your photos, then choose print size, finish and number of copies, and printing will start in seconds.

## PC: Drag-and-Drop

Connect your PC or Mac to the WPS Pro WiFi network and you can print to your DNP printers by simply dragging files onto shared hot folders in WPS Pro. Or, connect the WPS Pro to your office network router via Ethernet cable and all of the PCs and Macs on your office network can print.

## DSLR Shoot-to-Print

You can create fast, flexible shoot-to-print workflows using your favorite camera with WPS Pro and 3rd party applications like CamRanger™ or CamFi™. These applications allow you to print immediately via WPS Pro, or you can review photos on your iPad before wirelessly printing groups of photos.

## Flexible Workflow

The flexible workflow and hardware arrangement makes the WPS Pro simple to configure and easy to use. Built-in versatility supports up to two DNP printers and image transfer via FTP services and printer sharing. Print amazing photos from 2x6" to 8x12".

**Use capture devices ranging from digital cameras, smart phones, tablets, and computers coupled with a DNP photo printer for PC-free wireless printing.**

## Wireless Shoot-to-Print Workflow

Capture Device of Your Choice + DNP Printer and WPS Pro = Gorgeous Print!

# WPS™ Pro

- The new WPS Pro includes an easy-to-read 7" touchscreen display.

- Easily monitor print jobs, printer status, and see remaining print counts.

- Use the touchscreen to make configuration changes including language, default print queues, applying borders, and more!

## *Simple to configure and easy to use!*
