## DNP Retail Solution
## NX Plus+™ Software V2.6

### Standard Prints
This complete yet economical software package support a multitude of print sizes – 4"x6", 5"x7", 6"x8", 6"x9", 8"x10" and 8"x12" all in brilliant Gloss or Matte surface.

### Get Creative
Customers want access to their pictures and freedom to be creative. Drive demand for higher-margin creative products with borders, stamps, collage, and drawing.

### More Flexibility
Add a standard computer, kiosk terminal, or large touchscreen. NX Plus+ installs easily to any OS supported system to be as flexible and cost-effective as you need it to be.

### Grows With Your Business
NX Plus+ software is scalable. Start with our most economical RX1 printer configuration offering 4"x6" prints up to 6"x8" enlargements. If faster printing speeds are required, utilize our award-winning DS40 printer. As your business grows, add our DS80 printer for 8" enlargements.

### Enhance Content
The picture is great and so should the print. All of the "must-haves" are built into NX Plus+ including brightness, zoom, rotation, positioning, color adjustment, and automatic image correction. Get the perfect print every time.

### Simplicity Is Fun
Customers don't want to use complicated software AND store clerks don't want to support them. NX Plus+ allows a simple yet intuitive interface that makes it fun for customers to use and extremely simple for store clerks to learn and support.

### Add Custom Content
Create a custom Attraction Loop Screen to advertise your brand, call out in-store promotions, or increase the overall print order by offering value printing packages. Create content that boosts your sales in your specific store environment.
With NX Plus+, it's easy!

# NX Plus+™

A retail-savvy software that turns any PC and DNP printer combination into a self-service kiosk solution!

NX Plus+ software is scalable. Start with our most economical RX1 printer configuration, offering 4"x6" prints up to 6"x8" enlargements. If faster printing speeds are required, utilize our award-winning DS40 printer. As your business grows, add our DS80 printer for 8" enlargements. NX Plus+ is another way to let retailers offer Digital Prints on Demand™.
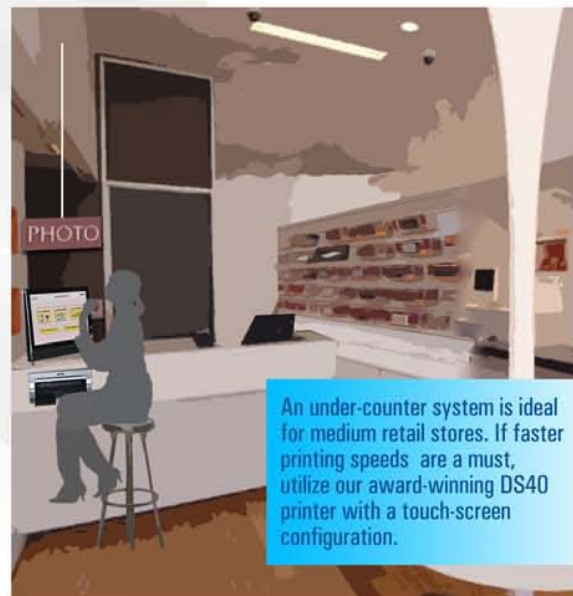

## Configurations:

### COUNTERTOP SYSTEM
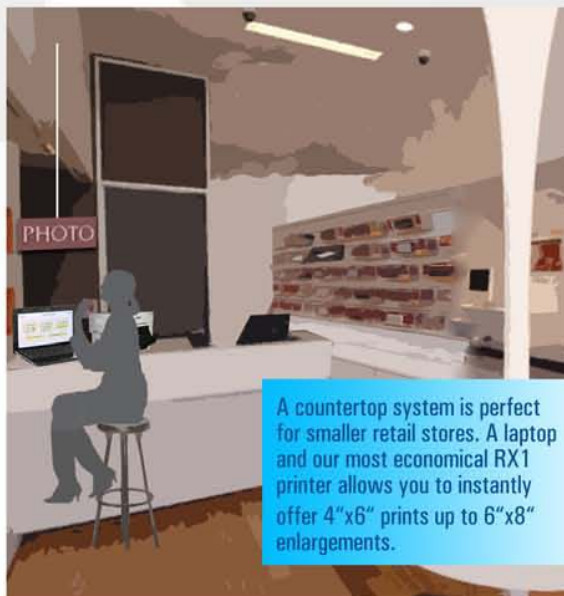

A countertop system is perfect for smaller retail stores. A laptop and our most economical RX1 printer allows you to instantly offer 4"x6" prints up to 6"x8" enlargements.

### UNDER-COUNTER SYSTEM

An under-counter system is ideal for medium retail stores. If faster printing speeds are a must, utilize our award-winning DS40 printer with a touch-screen configuration.

### MULTI-PRINTER KIOSK SOLUTION

As your business grows to larger volumes, a multi-printer kiosk solution may be right for you. Still the same NX Plus+ software with a DS40 for standard prints and a DS80 for 8" enlargements.

Keep the NX Plus+ software as the starting point and add any variation of printer and computer. The easy, fast, cost-effective way to offer Digital Prints on Demand™!

# NX Plus+ ™

**$**

DNP is redefining the retail print business with a cost-effective solution in NX Plus⁺. A fun user experience that is sustainable and low investment to you, the retailer, are the building blocks of NX Plus⁺.

**PLUG & PLAY**

The intuitive interface lets customers easily liberate their cherished photos from digital storage and transform them into beautiful prints.

Add your choice of computer, terminal, or touchscreen. Decide if you start with our most economical RX1 or DS40, and add the DS80 for 8" enlargements.

All of the "must-haves" are built into NX Plus⁺ including a variety of printing options, automatic image correction, color adjustment and various creative projects such as borders, stamps, collage, and drawing.
